Money Standard.

Parr, August 20.—M. Say, in his address at the Monetary Conference yesterday stated that the policy of France was to await a moment when she could revert to the free mintage of silver.

The Swiss representative said that while agreeing with the present expected attitude of the Latin Union, as described by Say, Switzerland looked forward to a gold standard as the ultimate solution of the question of coinage.

Goschen argued that a free mintage of panion of gold wherever position, as universal issue of silver would provoke a terrible crisis. He added that the agree ment for a universal gold standard migh force Eugland to reconsider her policy maintaining the silver coinage of India lottet.

BERS.
The following are the propositions sub-mitted to the Monetary Conference by tee New York delegates and now under dis-

ussion: 1st. It is the opinion of this assembly Ist. It is the opinion of this assembly that it is not desirable that silver be excluded from free coinage in Europe and the United States; on the contrary this assembly believe it to be desirable that an unrestricted coinage of silver and its use as money of unlimited legal tender should be retained where they exist and as far as practicable restored where they have ceased to exist.

2d. The use of both gold and silver as an unlimited legal tender money may be safely adopted, first by equalizing them at a relation to be fixed by international agreement, and second by granting to each metal, at the relation fixed, equal terms of coinage, making no discrimination between them.

English Money Market.

English Money Market.

Lonnon, August 20.—The Times says the money market remains unchanged. Discount rates have settled down into a kind of a temporary stagnation. Bills continue scarce. Short loans have been easier to obtain, but some demand is expected to-day, as considerable sums must be repaid to the bank. Apart from passing cases of that kind there is nothing in sight which is calculated to disturb the market, and rates are likely to remain for some time at considerably lower call than the Bank of England rate. This will be unfortunate in many respects, but apparently can't be helped.

MUSCATINE, IA., August 20.—The most
violent storm that ever raged over this
section completed its work of ruin last
night. The intense heat of the past two
days had nearly prostrated every one,
but about six o'clock heavy black clouds
gathered and the low rumble of far off
thunder caused all to seek shelter. The
rain soon fell in lorrents, and the streets
